

W+W

Roca

DESIGN + SUSTAINABILITY =

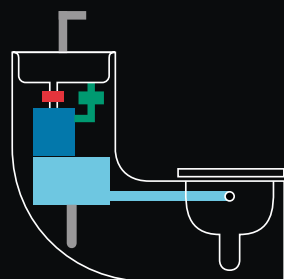

W+W

Washbasin+**W**atercloset

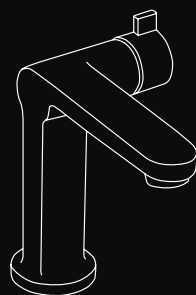

Delicate forms and innovative technology combine at last in the interests of sustainable progress. The new W+W is the sum of indispensable elements for saving both water and space, because its renovation system filters the wastewater from the basin and reuses it in the discharge of the cistern, and because its exclusive L-shaped design brings together in a single body what until now was unthinkable, giving greater freedom of movement. A meeting of the ways between sophistication and love for the planet.

DESIGN PLUS

- RUNNING WATER IS NOT WASTED
- SELECTIVE FILTERING SYSTEM
- WATER TREATMENT SYSTEM
- TREATMENT TANK
- WC CISTERN

Now every drop counts for two.

All of the water that falls into the white ceramic of the washbasin follows an exclusive drainage system. Thanks to a filtering system, the larger waste products are separated out from the water, and only the liquid passes directly into a small treatment tank where it is purified. Each discharge is made directly from this tank, which is connected to the watercloset cistern. In this way, the water supplied is clean and hygienic and is used down to the last drop.

Technology in the service of the environment.

The exclusive Single Pro faucet series was born out of the same need to find sustainable solutions that respect the environment. For this reason, it saves both space and water. On the one hand, it presents a compact format with smooth, minimalist lines, and on the other, it contains a progressive cartridge which enables water to be saved.

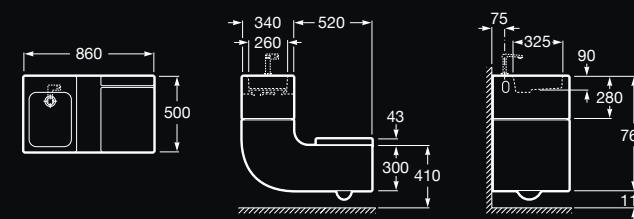

In addition, its revolutionary system opens directly in the cold position, avoiding turning on the boiler unnecessarily and so reducing CO₂ emissions.

Design by: Gabriele and Oscar Buratti.

Ref. 893020001

W+W is the fusion of washbasin and watercloset in one single piece. Complemented with the Single Pro faucet series, it is the logical choice when sustainability and good design are the priority. All in one.

Roca is the world leader

in bathroom spaces. For years we have anticipated the future thinking of solutions that best adapt to consumers' tastes and requirements.

Design

We surround ourselves with the world's finest architects and designers, such as Ferrater, Chipperfield, Moneo, Schmidt & Lackner, Herzog & de Meuron... We want to offer a design that will make your bathroom a unique space.

Innovation

We have our own Innovation Lab where we experiment every day with new ideas, designs and materials, with the sole aim of enhancing your bathroom experience and providing solutions to make your everyday life more comfortable.

Sustainability

We love our planet and we demonstrate it every day. For this reason, our products have advanced water- and energy-saving devices that permit balanced and sustainable co-existence with our environment.

Roca Guarantee

Every one of the products we sell complies with all specific European regulations. We offer you the finest product with the best guarantee. Our goal is your total satisfaction.
